

Supplier Catalogue Comparison

Operon local catalogue vs supplier site range/colour counts | 18 May 2026

Suppliers 5	Local ranges 77	Local colours 1025	Supplier colours 1025
----------------	--------------------	-----------------------	--------------------------

Notes

- The local catalogue still includes legacy duplicate range identities. This report keeps those visible instead of silently merging them.
- The supplier-site column uses the verified supplier counts supplied for the five requested domains.
- Rows marked Match have the same colour count locally and on the supplier site.
